

## Vision of "iPeP" "international peace éducation project"

The vision of "iPeP-NHG" goes beyond the ordinary and aims to uplift the spirit of humanity through timeless spiritual wisdom and universal values. It brings together "Ambassadors of Peace" (WoMen), to manifest pressing issues such as natural health, joyful birth, educational guidance, as a cultural activity with the human family, to transform physical-spiritual poverty and dissatisfaction as well as the climate-change of relationships so that young people can overcome "rationally impossible challenges" out of inner freedom.

The lived vision of the NGOs (iPeP+Universal Peace Foundation-MUC+Bhakti Marga Charity+Green Phoenix) strives to reunite the separated, that has been torn apart by excessive scientific rationalism, especially by medical and nature-disrespecting technologies that have confused the very essence of our well-being. To revive our innate wisdom and recognise that "we are nature" in ONE human family.

Renewal of the foundation of live - a natural, joyful-orgasmic birth creates a healthy, peaceful world! Birth should not be taken out of the context of life. Birth is like a hologram, it reflects everything that happens in a woman's life - in the creation of the new world!

The mission of "iPeP" is to promote universal humanity and ignite individual spirituality, guided by truth, simplicity, love, freedom, gratitude and peace. In various areas such as culture, spirituality, society, ecology and economy, "iPeP" creates healing spaces of learning and transformation.

In this symphony of nature, "iPeP" harmonises humans with the earth and promotes a balance of body, mind and heart in which human diversity thrives and the earth blossoms in its gentle embrace.

Our aim is to nurture the rich European heritage within the German-speaking community (D-A-CH). We extend an invitation to all nations to join hands, exchange experience, and foster the collective wisdom of humanity. Together, we aspire to create a new world based on the principles of "**awareness - pure heart - love**" as **one global family** within a harmonious circle - like a rainbow - on our shared planet „earth“.

### **Divine seitai movement "katsugen"**

it's origin is rooted in the wisdom of nature - where human being is in harmony with the divine movement. "Katsugen" is not an invention of our brain - but fully trust and surrender to our inner wisdom. Katsugen is a spontaneous movement which keeps our body and mind in harmony; it restores our balance without goal, will or technique.

**Katsugen** aktiviert das autonome, vegetative Nervensystem (medulla oblongata), welches für alle lebenswichtigen Funktionen unseres Organismus zuständig ist. Es geschieht im "Nichtdenken" - ohne willentliches Tun.

Le but du "**katsugen**" **est de régulariser notre organisme**. Le mouvement régénérateur permet d'entraîner le système extrapyramidal pour le rendre plus sensible - il se déclenche, en répondant au besoin de l'organisme.

**Natural LOVE conception, harmonious pregnancy, joyful-orgastic birth subconscious education**

Blessed by **Swami Paramahansa Vishwananda** to support the sadhana *Atma Kriya Yoga* in "calm mind"
